## 3. Population health model

## 4. Strategic approaches

<b>1</b> Consumers	<b>2</b> General practice	<b>3</b> Commissioning	<b>4</b> System integration
Putting consumers front and centre of all we do	Supporting general practice as the cornerstone of primary care	Commissioning services for those most at risk of poor health outcomes	Partnering to integrate services and systems

## 5. Place-based

Co-designing and commissioning outcomes which are locally relevant and sustainable

## 6. Foundations for change

- Setting priorities
- Allocating resources
- Monitoring performance

Encouraging better management and prevention to optimise health and wellbeing

Designing activities to stop, slow, reverse, divert the flow of people across the continuum

Reorientating care to be community based and closer to home

- Achieving four key results:
- improved health outcomes
  - better consumer experience
  - enhanced provider satisfaction
  - increased value for money
